CANDIDATE INFORMATION BULLETIN (CIB)

EXAMINATION CONTENT AND IMPORTANT INSTRUCTIONS

Please visit your official examination provider website OR www.nictesting.org for the most current bulletin prior to testing.

The National Cosmetology Practical Examination is a licensure examination for Cosmetology, developed by the National-Interstate Council of State Boards of Cosmetology (NIC).

This bulletin contains IMPORTANT INFORMATION regarding National Cosmetology Practical Examination content and administration for core services and additional sections and references.

PLEASE REVIEW ALL INFORMATION CAREFULLY.

For each NIC Practical Examination, there are multiple parts to every Candidate Information Bulletin (CIB):

IMPORTANT INSTRUCTIONS

- **Important Instructions and Examination Content Domain Sections** – This provides information and guidelines related to administration of the Practical examination and information about the scope of content covered in the core sections of the Practical examination.
- **Additional Services** – These provide information about additional sections offered by NIC for examination. Check with your State regulatory agency or examination administration vendor to determine which of these sections your State requires as part of their Practical examination.
- **References** – This provides a list of references used to develop and support the content covered in NIC examinations. References will be the same for Theory, Practical, Written Practical, and Additional Sections for each exam.

***BE CERTAIN TO REVIEW ALL PARTS OF THIS NIC EXAMINATION
CIB CAREFULLY!***

IMPORTANT INSTRUCTIONS

General

- The NIC Practical examinations are designed to assess candidates' ability to perform tasks expected to be performed while working as a licensed professional. The tasks a candidate will be asked to perform are those that frequently occur on-the-job and that are important to safe and proficient performance. Though the tasks are performed in an artificial testing session, efforts are made to make the tasks seem realistic and to closely mimic actual conditions. Candidates are expected to conduct themselves as if they were performing these tasks in actual scenarios.

IMPORTANT INSTRUCTIONS

- Do not leave the examination area without permission. Permission must be obtained to leave the examination area for any reason, including restroom usage or at the completion of the examination. *Picture ID is required for re-entry into the examination.*
- All examinations are administered in a testing environment.
- Candidates are evaluated at all times. Continue working until the entire section is complete or time has elapsed.

Supplies

Candidates are required to bring a supply kit for their own use.

- It is the candidate's responsibility to make certain they have a sufficient quantity of supplies that have been properly cleaned and disinfected and that implements are in proper working order.
- The kit will be used during the examination as dry storage and is considered part of the work area. The kit must be kept closed except when removing materials for a particular service.
- Candidates may remove items, supplies, etc., from the kit at any time, however *nothing* may be returned to the kit.
- EPA registered, disinfectant wipes that demonstrate bactericidal, fungicidal, and virucidal properties must be used. **DISINFECTANT AND AEROSOL SPRAYS ARE NOT ALLOWED IN THE TESTING ENVIRONMENT.**
- **All products must be labeled in English.** When an original manufacturer's label is required, there can be NO handwritten or any other type of labeling. Original manufacturers' labels must have English and may also include other languages. All non-manufacturer-created labels must

IMPORTANT INSTRUCTIONS

be only in English. No labels indicating order of use when performing the service are allowed.

- Original manufacturer’s labels are *required* for all disinfectants and hand sanitizers.
- Simulated products are not allowed for disinfectants and hand sanitizers.
- Candidates are to perform all tasks, utilizing products and supplies, as they were taught. There is however, a section titled “Suggested Examination Supplies” provided for each section of the examination. Suggested Supplies can be found after the “Content Domains” section of this bulletin.

Standardized Administration

Due to standardization of the NIC National Examinations, proctors and examiners are required to adhere to the following standards:

- All practical examinations are administered in English. The verbal instructions will be read twice for each section of the examination.
- With the exception of verbal instructions or an emergency situation, the proctors and/or examination administration personnel are not allowed to communicate with other testing candidates.
- Candidates requesting information during the examination will be told one of the following statements:
 - “Do the best you can with what you have available.”
 - “Do as you were taught.”
- If a candidate experiences an emergency situation, they may notify the proctor by raising their hand.
- Candidates will be given time to set up the universal (also known as general) supplies they will use throughout the examination.

IMPORTANT INSTRUCTIONS

- Each section of the examination has a maximum time allowance, with the exception of those specified as untimed sections.
- Once a candidate has completed all tasks in the section, they need to step back to indicate they have finished. In the event that all candidates complete a section before the time has elapsed, the examiners will proceed to the next section of the examination. When the timer goes off, all candidates must stop working and step back IMMEDIATELY.

Prohibited Items

- The following provides examples of materials and actions that are prohibited in the examination room during the examination administration:
 - Possession of cellular phones, watches (of any kind), pagers, tablets, computers, projectors, cameras, or any other electronic or recording devices, printed materials, or handwritten notes.
 - Purses, bags, coats, hats, and any other personal items not directly needed to complete the examination, are not allowed.
- Communicating to other candidates or any examiner.
- Exhibiting disruptive behavior. The above referenced items or actions are not an exhaustive list.

Failure to comply with any of these conditions or exhibiting ANY behavior that suggests an effort to cheat will result in immediate dismissal from the examination and the candidates' actions reported to the proper authorities.

IMPORTANT INSTRUCTIONS

Safety

- During all phases of the examination, candidates must follow all appropriate public protection and infection control procedures and maintain a safe work area.
- Infection Control is defined as:
 - Hand washing with soap and water, or the use of hand sanitizers. (Hand washing can be simulated with hand sanitizer).
 - Use personal protection equipment, for example, gloves and etc., to create a barrier between the practitioner and the client per service.
 - Regular cleaning, disinfection and sterilization of the environment including tools and surfaces, to reduce the spread of infections.
- In the event of a blood exposure incident, candidates will be expected to follow proper blood exposure procedures.
- Failure to do so may result in dismissal from the examination.
- Be sure to contact the examination provider or State to obtain the most current version of, and any addenda to blood exposure procedures.
- If a candidate does not follow infection control procedures or allows the work area to become and remain unsafe, the result may be a failing score for the examination and could result in removal from the testing area.
- If a candidate experiences any unsafe conditions, they need to address it immediately.

Blood Exposure Procedures

NIC has adopted the following OSHA standards for Blood Exposure [1910.1030 - Bloodborne pathogens. | Occupational Safety and Health Administration¹](#)

IMPORTANT INSTRUCTIONS

¹<https://www.osha.gov/laws-regs/regulations/standardnumber/1910/1910.1030/>

How does the adopted OSHA standard impact the evaluation of Blood Exposure during testing?

The NIC practical examinations will use the OSHA standard in evaluating candidate performance during testing. The following is the order in which Blood Exposure will be expected to be performed during testing:

NIC practical exam's evaluation of these steps are as follows:

- Avoid all contact with blood or bodily fluids.
- Use an appropriate **antiseptic hand cleanser**² (e.g., hand sanitizer) before working on client.
- Put on disposable gloves.
- If an individual is bleeding, do not touch the blood. Ask the injured individual to use a cotton ball or tissue to stop the bleeding and to throw the used material directly into the trash.
- Bandage open cuts or broken skin to prevent contact with blood.
- Throw away disposable gloves immediately after using them.
- Place contaminated supplies in appropriate receptacles.
- Use an appropriate hand cleanser after working on a client; hand wash with soap and water or use hand sanitizer (hand washing can be simulated with hand sanitizer).

²OSHA 29 C.F.R. § 1910.1030(d)(2)(iv). Hand cleanser can be substituted for hand-washing when soap and water is unavailable.

IMPORTANT INSTRUCTIONS

NIC Model or Mannequin Requirements

Please refer to your state specific guidelines for model and mannequin requirements. If your state requires that you use a mannequin head(s) :

- Candidates who are required to use a mannequin head(s) are responsible for coming prepared for the examination.
- Mannequin heads that are premarked for services or presectioned are not allowed for any part of the practical examination.
- Mannequin heads MUST be a full-size head, “minikin” or “junior” mannequin heads are NOT permitted.
- Mannequin heads must be approved by the examination state/vendor prior to admittance into examination.

Special Attention

The following information is vital and specific to the NIC National Cosmetology Practical Examination:

- Candidates will be evaluated on proper designation of materials that are disposed. Candidates are *required* to bring and use the following supplies for the appropriate disposal of materials:
 - Container labeled ‘To be disinfected’
 - Container labeled ‘Soiled linens’
 - Container labeled ‘Trash’
- It is specified that there is more than one client represented for the purpose of this examination. A new client is introduced and must be prepared for during the course of the examination (see Cosmetology Practical Examination Content Domains Sections).
- Candidates are not allowed to label products as single-use items.
- Use of single-use products may result in a failing score for the examination.
- In accordance with manufacturer’s guidelines, gloves MUST be worn during disinfection procedures.
